

## **Eagle Plaza Park**

### **Notice of Construction**

The city is excited to announce that the Eagle Plaza Park project is scheduled for construction improvements soon. The park is located on the west side of Center Street, just north of W. Fourth Street.

Construction is scheduled to begin the **week of July 25, 2016** at the earliest, with an anticipated completion date of October 28, 2016.

This area is intended to function as a “smart park,” and will include features such as mobile charging stations for laptops and cell phones, public Wi-Fi, attractive lighting, walkways, a grass play area for children, two bioswales with rain garden plantings, movable tables and chairs for eating and working, covered bicycle parking, and an interactive wayfinding kiosk highlighting downtown destinations.

Demolition work will occur first, and includes removal of pavement, pavers and curbing within the park and along Center Street. Several trees will also be removed as part of the project. The public sidewalk on the west side of Center Street will be closed during construction, and parking along the west side of the street is expected to be used by the contractors only. Additionally, the public alley behind the businesses on W. Fourth Street will be closed to vehicles during the project. The existing dumpster will be available for trash pickup as usual, though it may be moved closer to the roadway during construction.

211 Williams Street  
Royal Oak, Michigan 48067  
P: 248.246.3260  
F: 248.246.3008

Construction work will not occur during the Arts, Beats and Eats Festival over Labor Day weekend.

**If you wish to learn more about the project, you are welcome to meet with city and project representatives on Friday July 22 at 9:00 a.m.** The informational meeting will be held at Eagle Plaza Park as shown on the map.

The city realizes that this construction will be an inconvenience and all efforts to expedite this work will be utilized to minimize traffic conflicts and access to the various properties abutting the project.

If you have any questions, please call the City of Royal Oak Engineering Division at 248.246.3260.
